

Lgm_TT_to_TDB

```
graph LR; A[Lgm_TT_to_TDB] --> B[Lgm_hour24]; A --> C[Lgm_JD]; A --> D[Lgm_JD_to_Date]; C --> E[Lgm_IsLeapSecondDay]; C --> F[Lgm_JDN];
```

The diagram is a flowchart with six rectangular boxes. The box on the far left is shaded gray and contains the text 'Lgm_TT_to_TDB'. Three arrows originate from its right side: one points diagonally up and right to a white box labeled 'Lgm_hour24'; one points horizontally right to a white box labeled 'Lgm_JD'; and one points diagonally down and right to a white box labeled 'Lgm_JD_to_Date'. From the right side of the 'Lgm_JD' box, two arrows originate: one points diagonally up and right to a white box labeled 'Lgm_IsLeapSecondDay', and the other points diagonally down and right to a white box labeled 'Lgm_JDN'. All boxes have black outlines and black text.
