

`_wrap_Lgm_QuatRotateVector`

```
graph LR; A[_wrap_Lgm_QuatRotateVector] --> B[Lgm_QuatRotateVector]; A --> C[SWIG_Py_Void]
```

The diagram illustrates a central node, `_wrap_Lgm_QuatRotateVector`, which is highlighted with a gray background. Two blue arrows originate from the right side of this central node. The upper arrow points to a white node labeled `Lgm_QuatRotateVector`, and the lower arrow points to another white node labeled `SWIG_Py_Void`. All nodes are rectangular with black borders.
